The same is true of the other leading professions of law and of divinity. But, notwithstanding the important bearings which phrenologists the important bearings which parenoiogists know their science to have on medicine, and divinity, and law, there is no publication through which, as the appropriate channel, those bearings may be pointed out. SUPPLEMENT TO THE GLOBE.

PROSPECTUS FOR THE CONGRESSIONAL GLOBE AND APPENDIX.

THESE works have been published by us for six years. There are now more subscribers for them, probatly, than for any other paper published in the United States; certainly more than there are for any other paper published in this District. This large and increasing subscription is conclusive eluable to all who feel an interest in the proceedings of Congress. No other publication gives them so full, nor half so cheap. It is, indeed, the cheapest publication in the United States—perhaps in the world. Our position at the seat of Government enables us to print them at so low rate. We are compelled to publish the proceedings of Congress in detail, for our daily paper. This done, it requires, comparatively, but a small additional expense to change them to the forms of the Congressional Globe and Appendix. If it were not for these circumstanres, we could not publish them for tour times

the sum charged. The Congressional Globe is made up of the daily proceedings of the two houses of Congress, and the speed es of the men bers, condensed. The year and nays on all important subjects are given. It is published weekly, with small type, on sixteen royal

quarto pages.

The Appendix contains the speeches of the members at full length, written out by themselves, and is printed in the same form as the Congressional Globe. It is published as fast as the speeches can be prepared. Usually there are more numbers printed for a session than there are weeks in it.
